FAMINE AND DEATH

Will Follow a Torrifle Hurricane In the Fitt Islands

FIVE YEARS MAY NOT RESTORE

The Damaged Plantations-The Most Serious Hurricano Experienced in Years-A Steamship's Narrow Escape From Disaster-Heported Gold Field in Western Australia of Marvelous Itichness - Latest Advices From Samos.

Victoria, B. C., March 14.-Particulars by the Australian mail of a terrible hurricane which swept over the Fiji Islands a few weeks ago and the first oflects of which were still a topic of interesting discussion when the steamer Mirrowara touched at Suva, have been re ceived. It was in this storm that several large vessels came to grief with lamentable loss of life and buildings in Suva, the capital of Fiji, suffered very severely. The town is comparatively in debris, having been the centre of the hurricane. Most of the damage appears to have been done about 2 o'clock in the morning of February 7, when the force of the wind was terrific. The hurricane was accompanied by a fearful driving rain, penetrating everything. The storm continued until 5 o'clock Monday afternoon and then gradually calmed down.

The town was stripped of foliage and

ou every hand were houses with ver-audas blown down, roof half off, bare walls standing or damage of some other form apparent. The most serious reports of damage come from plantations in the group which has suffered terribly. The coccatuit plantations will take fully five years to recover and banana plantations have been totally ruiged. The past year had been such a panana plantations have been totally rained. The past year had been such a thoroughly successful one that business people were looking forward to a few years of prosperity, coconut plantations having only recently recovered from past blows. The island of Tavauni, which were the large prosperity of the prosperity of t on which most of the European plant-ers are settled, has been swept from top

to bottom.

The Union Steamship Company's steamer Osau had a miraculous escape. She was shipping angar at Valua Point, where there is absolutely no shelter. When the hurricana had blown over she had drifted miles away and got among the most dangerous patch of reels in the group known as the Ringold reels, where the smallest inter-insular steamer would not so in the broadest. steamer would not go in the broadest

daylight.

The food supply of the people is now almost entirely destroyed, and the effects which must surely follow such a storm are famine, disease and too often death. The last the Eight

storm are famine, disease and too often death. The government of the Fiji islands, fully aware of this danger, has voted unoney to meet the more immediate necessities of the case, but this will certainly not prove sufficient.

The cyclone traveled from east to west, developed around an axis against the sun. We had the last blast about 6 p. m. Sunday. Though then it blew a gale of almost hurricane force all night, it seemed to be calm compared with the fearful reality of the cyclone.

"On Monday morning what a sight the last of compared with the fearful reality of the cyclone." On Monday morning what a sight the lastand presented! All houses in the native town were leveled. Nearly all the 700 cottages were down or lurched & Drn away. The whole place had just the appearance of having been bombarded for weeks past by all the fleets on earth or sea, the ground being strewn with nuts looking like cannon balls, only no cannon could being strewn with nuts looking like cannon balls, only no cannon could have caused the devastation which was everywhere level."

A MOUNTAIN OF GOLD.

A Reported Gold Find in Western Austra tia-A Tribe Extirminated.

Vancouven, B. C., March 14.—By

mail, via steamer Kirowea, comes the astonishing story from the distant gold fields of western Australia hardly cred-itable if it had not been borne out by the arrest of several ringleaders in the most terrible tragedy that has yet been enacted. In the lawless Cooleardie a enacted. In the lawless Coolgardie a fabulous find has lately been reported from Ninety Mile Point, nuggets which weigh between fifty and a hundred and fifty ounces of pure gold being picked up on the surface of the ground. Prospectors pushed on for hundreds of miles in the wilderness far beyond where white men had everbeen. They had scarcely enough food and water to keep them alive. They were brought back raging with fever and placed in the Coolgardie hospital, already overcrowded with miners.

The fate of these desperate men did The fate of these desporate men did not deter eight new arrivals from form-ing a syndicate and with heavy packs of provisions, water and rifles started from Ninety Mile Point to prospect in the interior. They started December 1 of last year, and it was supposed they had met death.

nad met death.

Daniel Robertson, one of the syndi-cate, returned from his camp, 120 miles from Coolgardie, January 21 and confess-ed to the police that after discovering a mountain of gold the party returning to camp found that a band of blacks had stolen all their provisions. The syndi-cate pursued the blacks to their village

NOA DON'T KNOW

what a comfort it is to have ready at hand a remedy that never fails to relieve Constipation, and that, without pain or discomfort; and almost immediately cures headaches, and dispels every symptom of Dyspepsia. Such a remedy is found in Simmons Liver Regulator-not a sweetened compound to nauscate, or an intoxicating beverage to cultivate an alcoholic appetite, but a medicine pleasant to the taste, and

perfectly harmless when given to the smallest child. S. L. R. never disappoints. It possesses the virtues and perfec-tions of a reliable remedy of the kind endorsed by

eminent physicians. "It affords no pleasure to add my tests, mony to those you receive annually in reference to your valuable medicine, I consider Simmons Liver Regulator the best family medicine on the market. I have prescribed it with excellent results," —W. F. Pahit, M. D., Tracy City, Tenn.

and butchered the entire encampment, and butchered the entire engangement, shooting the men and braining the women and children. The other murderers have been arrested. The solid hill of quartz which the syndicate found is seventy feet high, 350 wide at the base and fifteen at the summit full of gold.

BECAME INSOLVENT.

The German Firm Which Armed Some Rebels New Bankrupt-Other News.

APIA, SAMOA, PER ETHAMBE MIRRO-WARS, VIA SAN FRANCISCO, March 14.— The Biggerman mercantile firm of Frings & Co., which was brought into unpleasant notoriety through importing and selling rifles and ammunition to the rebels, has been forced into in-solvency. King Malletoa and his gov-ernment have prepared charges of im-peachment against Herr Schmidt, the president of the council, and have sent president of the council, and have sent as petition to the three treaty powers praying for his recall. The rebel party is at present congregated in Aana, but there has been no recent outbreak.

A scandalous rumor was recently started here implicating the late Hobert Louis Newscores.

Louis Stevenson and his family in the importation of guns and ammunition for the rebels. The captain and agent for the robols. The captain and agent of the United States steamer Equator were also implicated. The author of the scandal has been arrested and awaits trial.

Herr Schmidt Leda, until recently Herr Schmidt Leds, until recently German consul at Yokohama, has been sent here to succeed Burmann, Germany's former consul.—Considerable excitement has been aroused here by Consul Burmann's action in prosecuting consul Burmann's action in prosecuting consul Burmann's action in prosecuting several loyal Samoans, who, learning large quantities of arms and ammunition, which were about to be turned over to the rebels, assisted the governor of the province in taking possession of the contraband articles on behalf of the government, to which they were con-tiscated in accordance with the Berlin treaty. These Samoans were solzed, put on board a German warship and afterwards imprisoned. They are now being tried.

RAILROAD MINES IDLE.

Claim They Cannot Afford to Pay the 69

Cent Rate-Liver Operators Basy. Pirrsnungu, March 14.—The strike of the miners of the Pittsburgh district is but one week old to-day and there are nearly two-thirds of the miners of the district at work at the union rate-09 cents per ton. The strikers consider the fight practically won, but or the light practically won, but they may yet bump up against some adverse circumstances in the persons of obstinate railroad operators. The river operators have conceded the demands of the miners and there has been a gen-eral resumption of work at all the river mines. All the river craft are being loaded, and as long as this rush continues there will be work not only for the full number of river miners, but also for a large number of extra men from the will real the river miners. from the railroad mines.

On the other hand, the railroad oper ators refuse to pay more than 55 cents per ton, and the majority of their mines are idle. They claim that they are compelled to refuse orders because they cannot fill them at the price quoted by competitors and pay the price demanded by the union.

A SPILING CAMPAIGN

Relieved to be One of the Japanese Plans.

The Island of Formosa to be Occupied.
WASHINGTON, D. C., March 14.—The cable report that a Japanese squadron of sixteen war ships has descended on the island of Formosa is believed at the Japanese legation here to indicate the opening of a spring campaign in warmer southern latitudes. Mr. Matsu, first secretary of legation, says that as he was about leave Yokohama a few weeks ago a military officer received weeks ago a military other received orders to prepare to go to the iront, but was notified not to provide warm clothing, such as the soldiers thus far have needed in the campaigns in northern China. It is believed Formosa will be the scene of a spring campaign. The understanding on terms of peace already reached contemplates the ceding of Formosa to Japan, but the latter of Formoss to Japan, but the latter country evide tly believes that pos-session of the island will doubly assure the execution of the agreement. The cable reports from Berlin stating

that Chinese envoys have intrigued with Russia until the czar has agreed to oppose Japan's designs on Manchuria, is not credited by officials here.

ELECTRIC COMBINE

The Amalgamation of the General Electrie and Westinghouse Companies May Be Concluded.

New York, March 14 .- The consolidation of the great electrical manufacturing interests of the country, to include such corporations as the Westinghouse and General Electric Company 18 now talked of.

talked of.

The project of consolidation is yet in an embryotic state. It may take material form at the next meeting of the board of directors of the General Electric Company, some of the members of which are said to be in favor of the formation of the big trust. This meeting will be held the first week in April. The directors are Oliver Ames, C. A. Coffin, who is also president of the company; T. Jeilerson Coolidge, jr., C. H. Coster, Thomas A. Edison, Eugene Griffin, of Schenectady, who is first vice president; F. S. Hastings, Heary L. Higginson, D. O. Mills, J. Pierpont Morgan and H. McK. Twombly.

Parliament Change

Lospon, March 14.-The Globe this evening states that the government has conveyed a hint to the opposition that conveyed a hint to the opposition that Sir William Vernon Harcourt, chancel-lor of the exchequer and Liberal leader in the house of commons, is disposed to accept the speakership when Sir Arthur Wellesley Peel resigns, providing his election is not opposed. The idea is said to have been well received by the opposition, and if it is adopted it is re-rectal that Mr. Campall Liberarana. ported that Mr. Campbell-Bannerman secretary of state for war, will succeed Sir William Vernon Harcourt as Liberal leader in the house of commons.

To Steal the Statue of Justice.

KANSAS CITY, Mo., March 14 .- What was doubtless an attempt to steal the was doubtless an attempt to steal the \$225,000 gold base of the lamons Montana silver statue, was frustrated here last night. The statue is on exhibition in the dry good store of a local firm. Two men, who had hidden themselves in the store when it closed last evening, got so far as to wrench an iron bar off the door near where the statue stood and were opening both doors, when discovered. The men field and were chased for several blocks and though fired at half a dozen times, escaped.

HARTFORD, March 14.—The senate has repealed the last of the blue laws. It was a statute which provided that a justice of the peace might convict a per-son on his personal knowledge without corroborative testimony of the otheres of Sabbath breaking, awearing, blas-phemy and drunkenness.

COLLEGE CHILS

Perpetrate a Practical Joke on Students' Parents-lumnies of an Asylum,

Bainggrout, Conn., March 14 .- Mr. and Mrs. Thomas Judson, well-known residents of Trumbull, received notice a few days ogo that their daughter Eleanors, who is a student in the teachers' college in Harlem, an adjunct to the normal college, had auddenly been taken insane and had been sent to Blooming lale asylum. The notice was filled out on a printed blank, and purported to be signed by Dr. I. O. Jamieson, physician in characteristics.

signed by Dr. I. O. Jamieson, physician in charge.
Mr. Judson went to New York and visited the college. About the first person he met was his daughter. She was in the best of health. The explanation of the matter showed that it was a heax arranged by the students of the college. Recently part of Bloomingdale anylum has been abandoned and that part of the old saylum has been abandoned and that part of the old saylum has been used by about the old asylum has been used by about fifty non-resident students of the teach fifty non-resident students of the teach-ors' college as a dormitory. In the building the girls found a lot of old com-mitment blanks for the asylum, and for a joke filled them out and sont them to the relatives showing that students had been committed to the asylum. They signed the name of Dr. Jamieson to the signed the name of Dr. Jamieson to the blanks. While at the college Mr. Jud-son found several other relatives and friends of students there that had received similar notices. The students are all said to be so penitent about the affair that it is understood the faculty will not noish them. will not punish them.

THE IRON TRADE.

in Encouraging Activity in Pig Iron Sales-Hotter Feeling in Railroad Purchases.

CLEVELAND, O., March 14 .- The Iron Trade Review this week will say:

Pufting together the reports from various pig iron selling centers, there has been an encouraging activity in that metal in the past ten days. Bessemer metal in the past ten days. Bessener pig has seen a luil, but in foundry and mill grades there has been an increasing sale. Southern furnaces have had a good share of the going business, but without any improvement in prices. In eastern Fonnsylvania and in the New York market larger sales of Alabamalron have been attended with further cuts. Detroit has had larger purchases of pig lenn in the week than for many of pig fron in the week than for many

of pig from in the week than for many weeks preceding.

There is a botter feeling as the result of the railroad purchases, the car orders having given business to a variety of industries that are not directly affected by rail purchases. Western lines have contributed more, of late, to the volume of railroad buying, particularly in cars, but it is well understood that some carriers in that section—particularly the corn roads—must have a good crop to corn roads—must have a good crop to haul before they can be of great help to the iron market. Reports from the foundries are somewhat conflicting. Some sellers of big iron flud their foundry trade still disposed to follow the market closely.

Secretary King's Condition.

INDIANA POLIS, IND., March 14 .- Myron D. King, the governor's private secretary, who was injured in the riot at the house of representatives Monday, is no better. The authorities say that the men who were conspicuous in the riot are all well known and are not likely to leave the state. It is understood that warrants will be issued.

PIERRE, S. D., March 14 .- Attorney General Crawford has gone east on a mysterious mission, supposed to be connected with the Taylor matter. He left hurriedly after receiving a dispatch and managed to avoid all questioners. It is the impression that he has gone to Washington to secure the papers neces-sary to bring Taylor from Mexico.

HOUSEHOLD HINTS.

SATURDAY, March 16. Time is the only gift in which God has stinted us, for he never intrusts us with a second moment until he has taken away the first, and never leaves us certain of the third here.

BREAKFAST.—Apples and dates. Pearl hominy. Bacon and tried potatoes. Weish rarebit. Rells. Coffee. DINNEL.—Corned beef. Sweet potatoes. Spinach. Tomatoes. White and corn bread. Prune joily and cream. Wafors.

Suppen.—Toast. Buns. Custard pie. Cookies. Ten.

Welsh Rarebit.

Two cups grated cheese; two egg yolks; one-half cup of milk; salt and cayenne to taste. Toast bread with crust removed if hard. Butter and plunge in hot water. Stand in a heated dish while you make the rarebit. Put the milk in a gratie saugean, heat the milk in a granite saucepan; heat slowly; add the cheese; stir until melted; add the yolks, salt and pepper. Pour over toast. Serve at once.

KNOWLEDGE

Brings comfort and improvement and Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the renedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect lax-

ant to the taste, the refreshing and truly beneficial properties of a perfect lax-ative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kid-neys, Liver and Bowels without weak-ening them and it, is perfectly free from

neys, Liver and Bowels without weak-ening them and it is perfectly free from every objectionable substance. Syrup of Figs is for sale by all drug-gists in 50c and \$1 bottles, but it is man-ufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
